

LITTLE DRAGONS' DREAM

By: Kennedy Garrett and Alaina Miller

OUR GOAL

- In the winter, many preschoolers lose their opportunity to have an effective recess.
- In the NPE preschool, they are limited to a small space with a small amount of equipment during indoor recess.
- Being able to give these kids a better area to properly interact and relieve stress is the main focus of our project.
- Financial goal: Receive grant; receive all items on amazon wish list.

WHY IS PLAYTIME IMPORTANT?

- NPE preschool teachers expressed the need and importance of a better outlet during the winter months to increase focus in the classroom
- Recess is a very important part of the day for many of these young children to have a break from academics.

It allows children to relieve built up energy from the long indoor months.

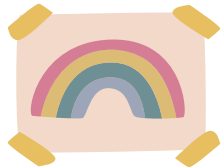

OBJECTIVES

- Supply the NPE preschools with a more interactive and effective play area to enjoy during the harsh winter months
- Collect donations and gather help from the community
- Create a more organized, aesthetic, and fun-filled environment for the kids to enjoy
